

Dear all,

Please find attached the answers to Monday's "words" Quiz which I hope got those brain cells working.

Hopefully you got most if not all of the answers, and just a couple of explanations for those who may have struggled on a few.

Q 21 Plough - Answer **Big Dipper** : yes this was meant to mislead you so you thought of farming implements etc but the answer was simply another name for the constellation.

Q29: He died with his Buddy! The capital letter for Buddy was meant to lead you to Buddy Holly who died in a plane crash ("the day the music died") along with three others including **The Big Bopper**.

Q46: Chopper - Answer: **Ron Harris** which you should all have got as even if you didn't know before last week I did ask it in the "Nicknames" Quiz so if you were concentrating.....

Q50: You can find Karl Marx, Marilyn Monroe, Oscar Wilde, GB Shaw and Albert Einstein here (with 53 others) Answer: this was probably the most stretching one although when you know the answer it's obvious (well it was to me) as it refers to the iconic **Sgt Pepper's Lonely Heart's Club Band** album cover for the Beatles designed by Peter Blake on which they all appear... but of course you knew that.....

Anyway on to today's General Knowledge Quiz which is also attached - answers tomorrow,

Have fun, stay safe and stay sane!
