

## Themed Thursday:

## Quiz 23: Pop Artists.

*Well following a request that I do a Quiz on “modern culture” I have chosen the murky world of popular music for this week’s Theme: but don’t worry in order to try and have questions that suit everyone I have gone from the 1960’s through – in the main – to the 1980’s, although there may be the odd group/person from later whom I’m sure everyone will have heard of.*

*There are fifty Cryptic clues including some awful puns (!) to either groups or individuals all of whom have had “hits” in the U.K, for you to try and identify and to get those grey cells working! I’ll send the answers out on Tuesday.*
